

COVERT INTEL: Iranian Sleeper Cells ACTIVATED

HAL TURNER | NATION | MARCH 01, 2026 | HITS: 4221

This Content is for Subscribers only --

Both the Federal Bureau of Investigation and the Department of Homeland Security have reportedly circulated internal ALERTS to government

agencies and state/local law enforcement saying they have evidence that **Iran has fully activated "Sleeper Cells" in the United States.**

These "cells" are allegedly operatives with military experience familiar with  **EN** ^ d methods of attack. They are allegedly intent on carrying out s..

It is believed the cells have been instructed to carry out attacks inside the United States beginning immediately. Today, and from here on out.

No specific targets are (yet) known, but it is believed the targets include famous hotels, airports, infrastructure, like the electric grid, water supply/treatment facilities, gas and oil pipelines - and gas/oil storage facilities, Railroads, key highway bridges at key highway intersections, and places where civilians gather in large numbers like Churches, shopping centers, and live concerts/sporting events.

There is a strident debate taking place within these agencies as to whether or not American citizens should be alerted. Authorities are concerned that it may create panic or may trigger vigilante actions against Muslims.

It is my view that this information should be conveyed to the American people so they can be aware of what MAY be planned, and be VIGILANT.

Situational awareness seems to me, to be imperative. Look around. Analyze what you see going on around you. If the hair on the back of your neck stands-up, there's a reason for it; take notice. Be aware. Take deliberate action to avoid potential trouble.

Those of you who are legally allowed to possess and or carry firearms, should do so for the protection of yourself and your family.

If you see something, say something. **Tell authorities if you see something that "just isn't right" or strikes you as a potential danger.**

Austin, Texas bar shot up last night by a muslim from Senegal. Senegal is mostly Sunni, so this won't just be a Shi'a muslim thing.

Don't go out without conceal carry. Let the shooting begin. It was going to happen, anyway, Biden just let in many more of them.

"Authorities are concerned that it may create panic or may trigger vigilante actions against Muslims."

LOL, who gives a shi'ite?

Iran is not alone. It's allies are Russia and China and they will never allow their neighbor Iran to be controlled by the West.

There is no point in asking "What will Iran do?" while ignoring the immense power of the bear and dragon behind it. Or asking What will America do?" while ignoring the reality of control

by the equally immense power of the six pointed star.

So the most relevant question regarding our own political future appears to be "Who is Netanyahu's boss and what is he trying to achieve by launching all these wars?"

Albert Pike may have provided the most rational answer in 1871.

"Authorities are concerned that it may create panic or may trigger vigilante actions against Muslims."

So we can strike a Muslim country and be worried that Americans would attack other Muslims, knowing Iran could attack us in our own backyard, and yet we would rather protect Muslims than Americans.

Anybody else really sick and tired of this shit?

Truthfully the border was wide open for 4 years and Biden admin flew hundreds of 1000s straight here and offloaded all over the country usually at late night. So no telling who came in and how many.

WAIT WAIT WAIT WAIT WAIT.

You're saying that the terrorists that the government let in for years have been activated? And they didn't clear those cells out first, before illegally attacking a sovereign Muslim nation? But instead chased down Jose at Home Depot instead?

Remember when they created Covid in a lab and then released it on the earth and then locked everyone down and wouldn't let them work unless they got an experimental clot shot? Pepperidge Farms remembers.

The U.S. is wide open for every kind of attack. And with no border for four years what kinds of weapons also arrived with the hordes of unidentified people that poured in? Dams, bridges, power plants, refineries, etc. etc. etc. all vulnerable. All by design.

What are the next plays on the chessboard?

There will be an event. It will cause consternation.

More laws will be enacted **for Gov't control**, where we will lose more of our freedoms - **for our safety.**

The gov't will just HAVE to declare martial law - for our safety.

After this Iran debacle Trump won't have to worry about winning **the mid-term elections.**

There may not be any – for our safety.

All the sleeper cells from various and asunder Countries will be activated. They all have chemical and biological weapons, which are considered, "The Poor Man's Nuke." America has broken to the other's ideas, and all the "Pandora Boxes" will be opened, and hope only exists in our Good Lord. Einstein said "I do not know how the Third World War will be fought, but the fourth will be fought with sticks and stones. Kurtz last words, "The horror, the horror, reverberated thru out the hearts and minds of people everywhere.

I wouldn't trust any information received by any asine alphabet agency in this cuntry. OHHH! the infamous Iranian sleeper cells are everywhere ...everyone be afraid ...snitch on your neighbor!! Let's see, the Russians are evil, the Iranians are evil, Muslims are evil, Iraqis are evil, Christians are evil, any sovereign nation is evil, any country w/o a central bank is evil. The only evils that were ever a threat to this cuntry have existed within these borders. Within the minds of the assholes every idiot has voted for. They're all bought and paid for by a bunch of pricks who think they are god because they have godly knowledge that they have kept from the 99.99% of the public. I think right now, it has never been more embarrassing to be a human being. FN Pathetic!

Sleeper Cells ... Activated ???

Opinion(s):

1. Good. Let them Identify Themselves by Coming Out in the Open ... (because cleaning them up/out will be sooner rather than later.

2. IRAN Leadership is on its last-leg ... (like an animal backed into a corner with no way out ... by lashing out at everything and anything around them.).

Guessing:

1. When IRAN Leadership Loses ALL Its Legs ??? ... (possibility of setting their oil wells on fire).

2. Oil is/will go North of \$80, to get the ... Drillers Back to Work.

Yeah vigilante actions against Muslims. The only vigilante actions will either be false flags or self inflicted. And either way, I'm all for a crusade to purge Islam from the US. Islam is incompatible with any culture, especially in the US.

AI says: "Based on reports from February 28, 2026, Iranian state media confirmed that multiple members of Ayatollah Ali Khamenei's family, including his daughter, son-in-law, and granddaughter, were killed in the same U.S.-Israeli strikes that killed the Supreme Leader." To those that reply to your post saying they think you are exaggerating and that there will not be an uprising but merely a few lunatics avenging... What do you think our country would do if President Trump AND Jared Kushner, Ivanka, and Kai were killed???

This is just the distrust they want to fuel, neighbor against neighbor, fear, they don't even have to do anything, goal accomplished.
Would expect now some huge explosions, maybe even small nukes, then anything they want to do they will do, and it won't even be any one from Iran that set them off.
Do you see how it works yet? Tyranny playbook. The Germans didn't know it was happening either, and they're pretty smart folks. Don't feel too bad, just realize it and prepare as best you can, and be a praying.
Don't get sucked in by the propaganda of mom apple pie and Chevrolet, it was always a ruse to send you to the recruiter, and it worked. Now they will just plain draft you and give your mom a flag.
There is a reason this war doesn't make any sense at all, its not about Iran.

I expect attacks linked to money and the financial system. Oil refineries, banks, internet, cell phone, power plants and transfer stations, airlines etc.

The public doesn't have to be told that Iran has activated its terrorist cells. However just like the "war on terror" after 9-11 they can be warned to be vigilant and if you "see something, say something " as before.

Panic? No. Americans have become so desensitized that even the announcement of alien life being real has had the effect of one big yawn.

I was first against the attack on Iran but I have changed my mind. When in Iran that the people in Iran are arrested just for singing. Also in Houston, Tx the American/Iranians were celebrating went the Iran ruler was killed. In the early 70's the ruler was pro-American and then a bad group took it over and we did not help them.

To continue justifying the lies of that started the war, the US ZioGov will resort to terrorizing the US population. The sleeper cell bogey-man has been around since the 1970s.

It is tiresome to see the same script over and over. When a "news piece" starts with "The FBI is .." you are likely reading a lie. The FBI is among the greatest terrorists on the earth at this present.

I do expect to see some natural violence among the many tens of thousands of illegal, bombed-out-of-house-and-home-land immigrants that were brought here by Jewish NGOs for that purpose and I expect this will be welcomed by those that have usurped the former US Gov.

It's past time to pretend our Government is not under Zionist occupation. What can be done to return American government to the control of the people? That's the question.

Hal,

This post should probably be made public.

This is the type of info that needs to circulate ASAP.

----- Hal Mocks:

Are you referring to the 13,990 members of the general public who read a story on my site during the fund-raising but only 157 of whom donated? Is THAT who you're referring to?

Nahhhhhh. I'll do for them exactly what they do for me: nothing. Month after month after month. Year after year, they did nothing. Now, they get nothing. See how that works?
